Report of the directors

TO THE SHAREHOLDERS

On behalf of the Board of Directors, I submit the Annual Report for the year ended December 31, 1974 along with the Financial Statements and the Report of the Auditors.

FINANCIAL HIGHLIGHTS

Earnings Per Common Share After Extraordinary Item75	2.10	(64)

SALES AND COMMISSION REVENUE

Although there was some increase in nylon yarn prices over 1973, the nylon market (on which our direct sales are based) deteriorated substantially in the last half of 1974 which affected earnings considerably. Volume of commission products, however, was up 13% and total revenue was up 9% compared to the previous year.

EARNINGS

The decline in volume of nylon sales reduced share earnings to 75¢ compared to \$1.33 the previous year. However part of 1973 earnings were due to inflation.

BALANCE SHEET

The reduction shown in deposit receipts was due to down payment made on machinery required for our new Cornwall Plant. This resulted in a shrinkage in working capital as indicated above. Inventories increased during the year due to higher material costs and lower direct sales.

EXPANSION PLANS

Construction is now underway on a new texturing plant in Cornwall, Ontario which is to be leased by the corporation on a long-term basis.

The corporation is negotiating long-term financing which is expected to cover the full cost of the machinery and equipment to be purchased.

We are planning to be in full production by the coming year-end supported by purchase contracts.

The company intends to continue production at its Cambridge Plant.

MARKET OUTLOOK

The decline in consumer demand which developed mid-1974 has continued into the first quarter of 1975, but we feel that a turn-around will be evident by the mid-year.

EMPLOYEES

We value the support of our employees and wish to record our appreciation for the contribution they have made during the year.

CHANGE IN BOARD OF DIRECTORS

R. J. Anderson, a director since 1962, retired from the Board of Directors in December, 1974.

Mr. E. Lawrence, a retired executive of the Toronto-Dominion Bank, was elected to fill the vacancy.

AUDITORS' REPORT

TO THE SHAREHOLDERS OF RIVERSIDE YARNS LIMITED

We have examined the balance sheet of Riverside Yarns Limited as at December 31, 1974 and the statements of earnings, retained earnings and source and application of funds for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the company as at December 31, 1974 and the results of its operations and the source and application of its funds for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Finished goods	279,785	129,659
	<hr/> <u>\$ 483,504</u>	<hr/> <u>\$ 399,240</u>

Raw materials are valued at lower of cost and replacement cost. Work in process and finished goods are valued at lower of cost and net realizable value.

2. FIXED ASSETS

	1974	1973		
	Asset value	Accumulated depreciation	Net	Net
Land	\$ 6,600	\$ 6,600	\$ 6,600	\$ 6,600

Land and buildings are valued at replacement value as of April 20, 1928 with subsequent additions at cost. Machinery and equipment are valued at cost.

It is the company's policy to write off the cost of fixed assets over the estimated number of years in which the asset can economically contribute to earnings.

Asset Class	Rate	Method
Buildings	5%	declining balance
Machinery and equipment		
Additions prior to 1968	20%	declining balance
1968 and subsequent additions mainly	20%	straight line

Depreciation charges included in cost of goods sold are \$300,439 (\$252,469 in 1973).

	<hr/> <u>\$ 224,880</u>	<hr/> <u>\$ 424,520</u>

Riverside Yarns Limited

3. LONG-TERM DEBT (continued)

These debt instruments are secured by the company's fixed assets and in addition the 12% mortgage loan is secured by a floating charge on all assets and undertakings of the company.

Principal due within each of the next four years is as follows:

1975	\$199,640
1976	120,880
1977	96,000
1978	8,000

4. CAPITAL STOCK

The Class A shares are convertible into common shares on the basis of one common share for each two Class A shares converted.

Dividends on Class A shares are in arrears at December 31, 1974 in the amount of \$2.125 per share totalling \$255,000.

5. COMMITMENTS

Construction is in progress on a new plant at Cornwall, Ontario. A lease is currently being negotiated for the land and buildings at an estimated annual cost of \$350,000 for a thirty year term.

Related production equipment is estimated to cost \$3,900,000. Of this amount \$350,818 had been expended at December 31, 1974, chiefly as deposits on equipment orders totalling \$3,400,000.

The company is negotiating long-term financing which is expected to cover the full cost of the machinery and equipment to be purchased. Receipt of these funds will increase the company's working capital position which has been reduced as a consequence of the \$350,818 expended on equipment in 1974.

6. EARNINGS PER COMMON SHARE

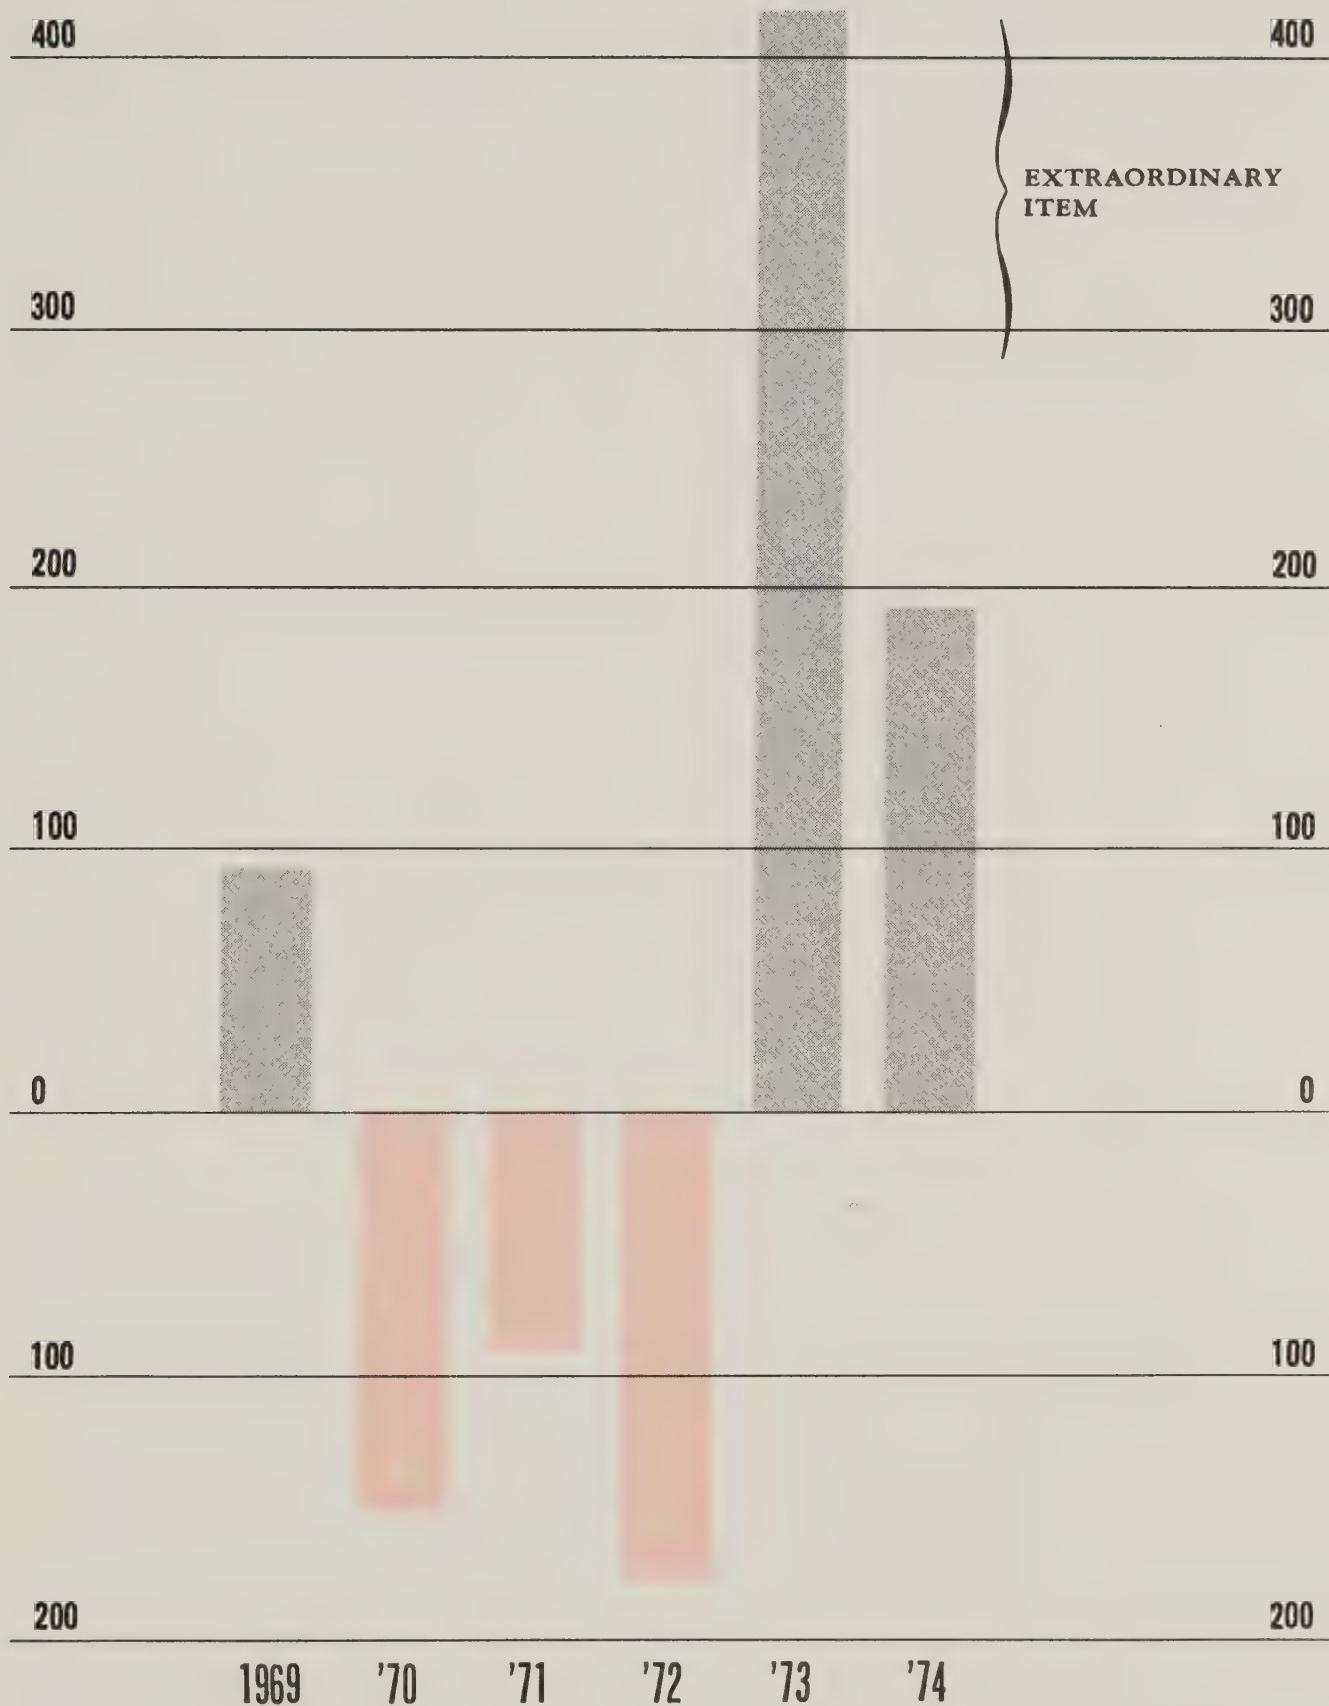

Earnings per common share have been calculated after providing for dividends for the year on Class A shares. Conversion of the Class A convertible shares would be non-dilutive in 1974.

7. OTHER STATUTORY INFORMATION

Direct remuneration of directors and senior officers (as defined by The Business Corporations Act) amounts to: 1974, \$135,700; 1973, \$110,853.
